Statement of: **David WILLIAMS**Age if under 18: **Over 18** (if over 18 insert 'over 18') Occupation: **Controlled Drugs Officer**

This statement (consisting of 4 page(s) each signed by me) is true to the best of my knowledge and belief and I make it knowing that, if it is tendered in evidence, I shall be liable to prosecution if I have wilfully stated in it, anything which I know to be false, or do not believe to be true.

Signature: **D WILLIAMS**

Date:

09/03/2020Tick if witness evidence is visually recorded (supply witness details on rear)

I am employed by Lincolnshire Police as the force Controlled Drugs Officer. I work within the various legislations that regulate the use of Controlled Drugs and I am empowered by the Secretary of State for Health under section 20 (5) of the Health Act 2006 to carry out inspections for the purpose of securing the safe, appropriate and effective management and use of Controlled Drugs.

As part of my role I have assisted and carried out inspections of premises throughout the county with members of staff from the Medicines and Healthcare Products Regulatory Agency (MHRA), in relation to the possession and sale of unauthorised medicinal products from shop premises. These products are regulated under the Human Medicines Regulations 2012 (HMR 2012) and make it an offence under regulation 46(3) and 47(1) to possess unlicensed medicines knowing or having reasonable cause to believe that the product was intended to be sold or supplied to another person within the European Economic Area. Under medicines legislation, it is unlawful for medicinal products for human use to be marketed, manufactured, imported from a third country, distributed and sold in the United Kingdom (UK) except in accordance with the appropriate licences or exemptions. The UK has three legal classes of authorised medicines: General sale list (GSL) medicines are suitable for sale and normal use without supervision or advice from a pharmacist or doctor and in the UK GSL medicines can be sold in most shops

Statement of: **David WILLIAMS**

(without a licence) for example Anadin, Panadol, Nurofen Ibruprofen but these have to be UK sourced, and have the marketing authorisation and correct UK packaging and leaflets, you cannot sell foreign medicines even GSL's as you would breach the HMR 2012.

Pharmacy (P) medicines can only be obtained from a pharmacy and are sold or supplied under the supervision of a pharmacist

Prescription-only medicines (POM) must be prescribed by an authorised healthcare professional, for example a doctor, dentist or independent prescriber. Genuine foreign versions of UK licensed POMS will be POMS under regulation 3(b) because even though the foreign version will not have a UK marketing authorisation, it will contain the same active ingredient as the UK licensed product and that active ingredient will be listed in column 1 of schedule 1 to the POM order.

In order for the medicines to be licensed they have to be manufactured and branded in English livered writing and the enclosed patient leaflet also has to be the same. The use of over stickers and translated leaflets is not allowed and is also an offence and could be classed as manufacturing. As well as the English livery the packaging will also have a PL number, this refers to the product licence and who the licence holder is.

A product will only be a medicine if it satisfies the following definition:

Any substance or combination of substances presented as having properties for treating or preventing disease in human beings

Any substance or combination of substances which may be used in or administered to human beings either with a view to restoring, correcting or modifying physiological functions by exerting a pharmacological, immunological or metabolic action, or to making a medical diagnosis.

<p>When medicines are manufactured the packaging it is contained in will include a lot or manufacturing code (i.e. batch number) and also an expiry date. The purpose of the batch number is so if a product has to be recalled then it is often identified by the batch number. The expiry date relates to when the medication should be used by and should not be available for sale after this date. After the expiry date medicines may not be safe or as effective.</p> <p>On the 23rd January 2020 Officers attended the premises of Fantasia, 2 Bourne Road, Spalding. The officers attending carried out a search of the premises and seized a quantity of Foreign livered medicines from display in the shop. These products were placed in two large plastic bags and sealed with an evidence seal tag. The tag numbers are Bag 1 Tag number 0479231 and Bag 2 Tag number 0479203. I have since examined the contents of these bags and confirm that although they appear to be medicines and supplements manufactured by licensed manufacturers they are in non-English livery and a number of the original boxes have had placed on them translated English over stickers some of which the print was so small or worn out you couldn't read them in any case. None of the boxes have a PL number on them but were labelled with a price label so were clearly for sale to the public. I do not intend to comment on all the individual medicines seized from the shop as there were 369 individual products of various sorts. I have used both the British National Formulary (BNF) and the EMC as a reference; the electronic Medicines Compendium (eMC) contains up to date, easily accessible information about medicines licensed for use in the UK. The eMC has more than 14,000 documents, all of which have been checked and approved by either the UK or European government agencies which license medicines. These agencies are the UK Medicines and Healthcare Products Regulatory Agency (MHRA) and the European Medicines Agency (EMA).</p>

Statement of:	David WILLIAMS
---------------	-----------------------

Upon examination of the sealed bags there were some products that in the UK would be classed as prescription only medication these were 5 boxes of Opekan 7.5mg tabletki (tablets) there were 10 tablets in each box priced at £3.99. These tablets contain the drug Meloxicam which in the UK is a prescription only medication which is prescribed for rheumatic pain and inflammation. The equivalent product in the UK is only available on prescription from a GP and obtained from a pharmacy. From the other medicines that I examined what should be born in mind is that if some were to be sold in Poland they would only available from a pharmacy under the direction of a pharmacist as they have to be happy that suitable advice can be given to the person who is taking them should they be pregnant or if it is being purchased for a child as a lot of the medication was for babies and infants so they should ensure that the correct dose is given depending upon the age of the child. There were a number of bottles that were not over labelled but the bottles were supplied with additional over label stickers that were needed to be stuck on, if that was to be done by the shop owner they could be classed as a manufacturer. Although some of the products had over stickers in English they still had the original patient leaflet inside and non-displayed a PL number. From the medicines that I examined I have formed the opinion that if they were licensed for sale in the UK which none were there would be a mixture of prescription only medication, pharmacy and general sales list products.

STATEMENT OF WITNESS

(Criminal Procedure Rules r27.1(1); Criminal Justice Act 1967, s.9, Magistrates' Courts Act 1980, s.5B)

STATEMENT OF: Rebecca Dorothy Money
AGE OF WITNESS: Over 18
OCCUPATION OF WITNESS: Senior Trading Standards Officer

This statement (consisting of 1 page signed by me) is true to the best of my knowledge and belief and I make it knowing that, if it is tendered in evidence, I shall be liable to prosecution if I have wilfully stated in it anything which I know to be false or do not believe to be true.

Dated the 10th day of March 2020.

(Signed) 

(being unable to read the above statement, I read it to him before he signed it)

Dated the day of

(Signed)

I am employed by Lincolnshire County Council Safer Communities Service, as a Senior Trading Standards Officer; as such I am duly authorised to enforce the provisions of the Food Safety Act 1990.

On Thursday 23 January 2020, I accompanied my colleague Andy Wright, Principal Trading Standards Officer, and PC Gina McConville to the premises of Fantasia, 2 Bourne Road, Spalding PE11 1JW.

During this inspection I was instructed by Andy Wright to check the refrigerator for out of date food, specifically "use by" dates. I inspected the packaging of various items of food stored within the refrigerator, and in a basket on the floor next to the refrigerator containing reduced-priced food products.

I found food products both in the refrigerator and in the basket marked with use by dates that had expired. Whilst I inspected food products in the refrigerator for out of date food, the manager, Mr Hemen, kept telling me to stop doing it. I told him I had been instructed to inspect food products in the refrigerator and that's what I had to do. Mr Hemen also commented that his customers' did not care that food may be passed its date. I began writing out a trading standards report number 1001399, on which I listed the number of food products and their corresponding expired use by dates. Once I had finished writing on the trading standards report, Andy Wright added some further comments on the bottom of the form and after explaining the form to Mr Hemen, they both signed it. I produce this trading standards report number 1001399, in evidence as RDM/1, endorsed with my signature. Andy Wright and I waited for PC Gina McConville to complete her work and then we all left the premises with the infringing products.

(Signed)

Trading Standards Report

HEMEN
AHMAD

Date: 23/1/20

Name: FANASIA
Address: 2 Bourne Rd, Sandringham
Postcode: PE11 1JW
Telephone No: Email:

During the course of my inspection, I examined the following:
Goods in an unstaffed counter only. Seafood was labelled in English. No other product had an English label quantifying the goods.
Chiller/fridge - checked for out of date food.
Use by dates - 3 x 19/1/20, 1 x 20/1/20, 3 x 20/1/20, and 5 x 22/1/20 (fish). 6 x 21/1/20 collage meats.

The following may constitute an offence under the legislation named:
Food Safety Act.

I require/recommend that you take the following action:
The out of date items were removed from your premises for disposal. - taken as samples
Do daily checks to ensure no product is displayed for sale past its corresponding use by date.

WARNING: Failure to comply with the law may result in formal action including prosecution.
