

SOUTH HOLLAND DISTRICT COUNCIL

Report of: Councillor Peter Coupland, Portfolio Holder - Finance

To: Cabinet, 16 June 2020

Author: Samantha Knowles, Strategic Finance & Compliance Manager

Subject: Financial implications of Covid-19

Purpose: To update on the potential financial implications resulting from the Covid-19 pandemic

Recommendation(s):

- 1) That Cabinet note the report and financial implications to the Council.

1.0 BACKGROUND

1.1 This report provides an overview of the current assessment of the emerging financial impact to the council from the Covid-19 pandemic. The financial position and national picture is constantly changing therefore the values included in this report must be seen in this context and will be subject to change over the coming months.

1.2 The Government has announced two tranches of funding to date of £1.6bn each to support local authority finances. South Holland District Council has received a total of £1,006k from this funding. Despite this, the Council is facing considerable challenges from both additional costs and from reduced income and this funding is unlikely to cover our total losses unless additional funding is provided.

The financial challenges arise from different areas:

- Costs – cost pressures from increasing demand such as temporary housing accommodation, leisure, waste, housing benefit, exceptional costs such as community support work and communications and contractual costs.
- Income – significant lost income in fees and charges (planning, building control, car parking, debt enforcement, etc.) and potential rent holiday/waiver requests from commercial property tenants.
- Savings – the current year's savings plans are at high risk of non-delivery as focus has been diverted in order to manage the pandemic response.
- Investments – loss of investment income from reduced interest rates and prioritising short term deposits to maximise liquidity.
- Funding – falls in collection rates on council tax and NNDR and an increase in Council Tax Support Scheme demands could have a significant impact in the funding due to the council.

1.3 Appendix A provides our current high level estimates of additional costs and lost income pressures based of what we believe to be an optimistic, realistic or pessimistic outcome of the current COVID-19 pandemic, these figures are before the application of the Government funding already received.

There is a high degree of uncertainty within these forecasts and they will continue to be refined as the situation develops both locally and nationally.

- 1.4 In order to ensure the Council can manage these pressures in this ever changing environment, work will be carried out over the coming weeks with budget managers to review each budget line to identify areas of saving which can be re-allocated to current priorities which will change and adapt to the latest situation, ensuring the Council can respond quickly. The capital programme will also be reviewed to determine timings and priority of existing projects. This will be done in conjunction with the Gold and Silver Command resources to ensure focus on future priorities is given.

However, it is highly likely that the Council will have to draw on reserves in the current year and potentially next year in order to balance the budget. Our reserves are mainly allocated to specific projects, with only a limited amount available. The General Fund as at 1 April currently holds £2,078k, this is the working balance that helps the authority to cushion against uneven cash flow and unexpected events.

Appendix A shows the level of un-allocated reserves which are held for emergency purposes (such as this) including the General Fund. Whilst we could draw on our General Fund to some degree it would not be prudent to use all of it in case of future emergencies. Although budget savings will be utilised initially where possible, there is likely to be a need to re-divert resources to exceptional costs and new priorities.

If our lost income and spend exceeds these values then we will need to draw on other areas such as the Council Tax Reserve and Investment & Growth Reserve. Drawing on these reserves will result in pressures on achieving savings in future with no funds remaining to invest in property, growth or savings initiatives or smooth business rate income volatility. It will also impact on our ability to deliver key projects.

Additionally we could choose to re-prioritise some projects from these reserves to allocate funding to our new priorities and this work will also take place over the coming weeks and months.

- 1.5 MHCLG have created a data collection exercise aimed to provide Government with up to date information on how existing funding is being used and the changes in income and expenditure for Councils. The 1st collection exercise was carried out in April and has been refined for the 2nd collection in May. To date there have been inconsistencies in how the returns were completed nationally due to differing interpretations on the form requirements and it is hoped that the consistency will improve as further collection exercises are carried out.

South Holland District Council, Lincolnshire District colleagues and other national groups such as DCN and LGA continue to lobby Government to highlight our cost pressures in the hope that further funding will be forthcoming so that the cost burden does not fall onto the Council Tax payers of SHDC or impact on our future service delivery.

2.0 **OPTIONS**

- 2.1 That Cabinet note the report and financial implications to the Council.
- 2.2 Do nothing.

3.0 **REASONS FOR RECOMMENDATION(S)**

- 3.1 This report is for information purposes.

4.0 **EXPECTED BENEFITS**

4.1 To provide an overview of the current assessment of the emerging financial impact to the council from the Covid-19 pandemic.

5.0 **IMPLICATIONS**

In preparing this report, the report author has considered the likely implications of the decision - particularly in terms of Carbon Footprint / Environmental Issues; Constitutional & Legal; Contracts; Corporate Priorities; Crime & Disorder; Data Protection; Equality & Diversity/Human Rights; Financial; Health & Wellbeing; Reputation; Risk Management; Safeguarding; Staffing; Stakeholders/Consultation/Timescales; Other. Where the report author considers that there may be implications under one or more of these headings, these are identified below.

5.1 **Financial**

The report is of a financial nature & includes information within the report.

6.0 **WARDS/COMMUNITIES AFFECTED**

6.1 N/A

7.0 **ACRONYMS**

7.1 DCN – District Councils Network

7.2 LGA – Local Government Association

7.3 MHCLG – Ministry of Housing Communities and Local Government
