Health & Safety Policy – General Statement of Intent

South Holland District Council (SHDC) is committed to the health, safety and welfare of our employees and others who may be affected by our activities.

We will make provisions for health, safety and wellbeing according to the Health & Safety at Work etc. Act 1974 and subsequent regulations made under the Act. As an organisation we will comply with our legislative requirements.

We will provide, according to the Health & Safety at Work etc. Act 1974, so far as is reasonably practicable:

- Safe plant and machinery;
- Safe systems of work;
- Safe handling, storage and use of substances;
- Information, instruction, training and supervision so that employees are competent in their job;
- Control and maintenance of the workplace;
- Safe access and egress;
- A safe working environment.

SHDC recognises that employees are a vital asset, and is committed to the prevention of injury and ill health, and to the health, safety and welfare of non-employees, who may be affected by the Council's work activities.

We have developed various audit/inspection tools as our mechanism for achieving this. In doing so, we will strive for continual improvement in our management of health and safety.

SHDC will:

- Recognise that safety is of paramount importance and an integral part of all its activities;
- Be committed to the systematic identification of hazards, control of risk and compliance with applicable legal requirements and other requirements to which it subscribes;
- Communicate and consult with employees on matters relating to the health and safety, policies, procedures guidance and performance monitoring;
- Establish and maintain an effective health and safety management structure with individual posts having clearly defined safety responsibilities and competencies;
- Provide adequate financial, human and physical resources to provide a working environment that protects the health and safety of our employees and those using our facilities.

However, successful implementation will rely heavily on the co-operation of those who actually carry out the work and take the risks, to act responsibly and to do everything they can to prevent personal injury to themselves, other employees and those affected by our activities.

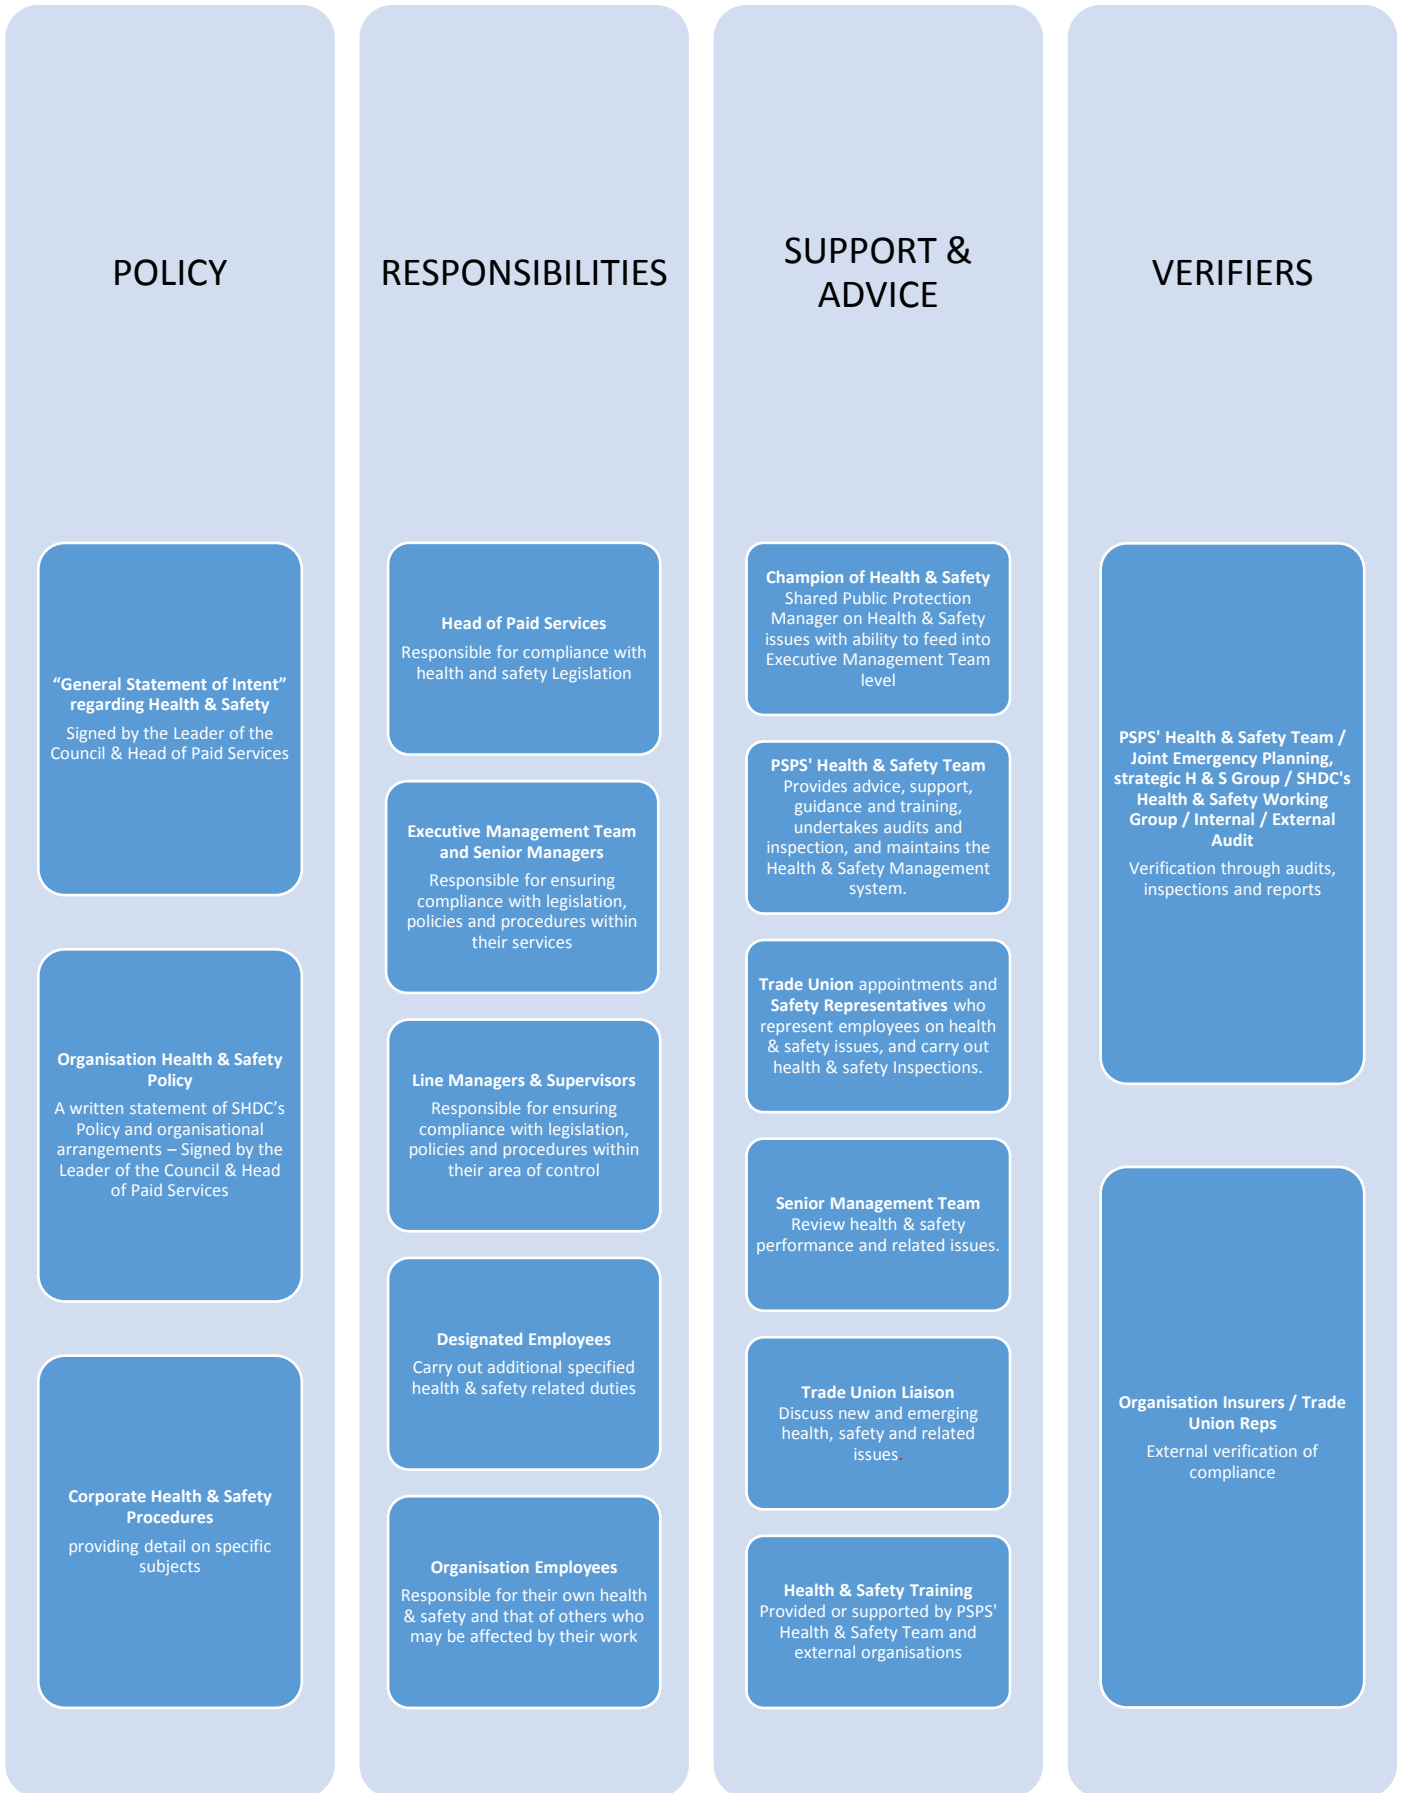

The Head of Paid Services, Executive Management Team, Senior Managers, Line Managers and Supervisors have defined responsibilities for the management of health and safety, as detailed in the Arrangements under "Responsibilities". Their performance and that of SHDC as a whole will be regularly monitored. Details of the management structure and the arrangements for implementing the Policy are contained within this document.

The overall responsibility for this Policy rests with the Leader of the Council and the Head of Paid Services. They will be assisted by the Executive Management Team and PSPS' Health & Safety Team in ensuring that the Health & Safety Policy is implemented, developed, monitored and reviewed.
