3. PERFORMANCE FRAMEWORK

This does not replace performance reporting within the sovereign councils but is in addition to it with a specific focus on Partnership performance.
- 3.2 Performance measures have now been added to the outline Framework at Appendix A to enable the regular reporting of the progress of the Partnership in delivering its agreed priorities. The measures will also be used to help to shape the future priorities for the Partnership over time.
- 3.3 It was agreed in the outline Performance Framework to report on a six-monthly cycle to Council, covering the periods April to September and October to March. This report sets out the performance measures for 2022/23 and the next report will report performance from April to September 2022.
- 3.4 The draft performance measures were presented to Stakeholder Group and Joint Strategy Board in February 2022.
- 3.5 The Performance Framework and the measures will be key sources of evidence for an LGA Peer Review that is planned to take place across the Partnership between 10th and 14th October.
- 3.6 Council is being asked to note the performance measures for 2022/23.

LINKS TO 12 MISSIONS IN THE LEVELLING UP WHITE PAPER

The Performance Framework provides the mechanism for the Partnership to identify and report on measures relating to the 12 missions as set out below: -

MISSIONS	
This paper contributes to the follow Missions outlined in the Government’s Levelling Up White paper.	
Living Standards	By 2030, pay, employment and productivity will have risen in every area of the UK, with each containing a globally competitive city, with the gap between the top performing and other areas closing.
Research and Development	By 2030, domestic public investment in Research & Development outside the Greater South East will increase by at least 40% and at least one third over the Spending Review period, with that additional government funding seeking to leverage at least twice as much private sector investment over the long term to stimulate innovation and productivity growth.
Transport Infrastructure	By 2030, local public transport connectivity across the country will be significantly closer to the standards of London, with improved services, simpler fares and integrated ticketing.
Digital Connectivity	By 2030, the UK will have nationwide gigabit-capable broadband and 4G coverage, with 5G coverage for the majority of the population.
Education	By 2030, the number of primary school children achieving the expected standard in reading, writing and maths will have significantly increased. In England, this will mean 90% of children will achieve the expected standard, and the percentage of children meeting the expected standard in the worst performing areas will have increased by over a third.
Skills	By 2030, the number of people successfully completing high-quality skills training will have significantly increased in every area of the UK. In England, this will lead to 200,000 more people successfully completing high-quality skills training annually, driven by 80,000 more people completing courses in the lowest skilled areas.
Health	By 2030, the gap in Healthy Life Expectancy (HLE) between local areas where it is highest and lowest will have narrowed, and by 2035 HLE will rise by 5 years.
Wellbeing	By 2030, well-being will have improved in every area of the UK, with the gap between top performing and other areas closing.
Pride in Place	By 2030, pride in place, such as people’s satisfaction with their town centre and engagement in local culture and community, will have risen in every area of the UK, with the gap between the top performing and other areas closing.
Housing	By 2030, renters will have a secure path to ownership with the number of first-time buyers increasing in all areas; and the government’s ambition is for the number of non-decent rented homes to have fallen by 50%, with the biggest improvements in the lowest performing areas.
Crime	By 2030, homicide, serious violence, and neighbourhood crime will have fallen, focused on the worst-affected areas.
Local Leadership	By 2030, every part of England that wants one will have a devolution deal with powers at or approaching the highest level of devolution and a simplified, long-term funding settlement.
