

## **BUDGET OVERVIEW 2023/24 AND DRAFT BUDGET**

### **Response to action point 22. 22/23 (a)**

*Members asked for clarification of the size of shop unit which determined whether businesses rates were payable. Concern was expressed for larger shops, where rates were payable, and for empty shop units which were not contributing to the economic vibrancy of towns.*

The following response was provided by the Head of Revenue and Benefits (PSPS) and circulated to the Joint PMP/PDP Committee on 3 May 2023:

#### **Rating of Shops**

The Valuation Office Agency (VOA) is responsible for maintaining the rating list, and decisions about the hereditaments (properties) that are on the list.

For shops and high street businesses the VOA use a 'rental' method to value businesses, analysing the information to work out a price per square metre for the property. It will consider local conditions and property characteristics in reaching its valuation.

Shops and high street properties that are 'like each other' will be part of a valuation 'scheme' making rateable values fair and consistent.

#### **Unoccupied Shops**

Shops will be entitled to a 3-month exemption from the date stock is removed from the property. Once the 3-month period has expired, they will then be liable to 100% empty property rates (this is calculated using the higher multiplier which for 2023/24 is £0.52).

There are some exemptions from empty property business rates including: -

Those with a rateable value below £2,900

- A property held by a Charity or Community Amateur Sports Club (CASC) and is likely to be used for charitable purposes or for the purposes of the sports club
- Listed buildings and ancient monuments
- A property owned by a company in administration
- Where the law does not allow the property to be occupied
- Where the Crown or a local/public authority is taking action that prevents occupation
- The person entitled to occupation holds it only as the personal representative of a deceased person

Shops will be treated as unoccupied until there are items e.g. stock etc., placed in the property, from which point the shop will be considered to be occupied.
