<p>Commentary: As this indicator is a percentage of customers who approach later in their Homelessness due to not seeking advice in a timely manner it gives the KPI a lower figure. Our approaches in Quarter 3, 120 Cases, were a lot higher than recently (Q2 – 86 & Q4 – 82). It is also key to highlight that this stat in comparison to the East Midlands is similar (EM 47%). To address these issues the service held a Housing Options Hub at the South Holland Centre to encourage early presentation in March and scheduled another for May in Holbeach. Additionally, prevention Officer has now been employed and has been out visiting Support Services, Letting Agents and Charities to encourage early presentation. The services is working to improve the delivery of support by improving the website and information available, as well as attempting to get on Landlord Letters when issuing NTQ's/Section 21's to ensure customers come to us first.</p>

<p>Commentary: At the end of Q3 we are 0.11% ahead of performance at the same point last year. Targets are profiled to take into account the amounts that fall due and payable from ratepayers over the remainder of the financial year. Due to the impact of the revaluation and changes in reliefs that took effect from 1 April 2023, previous years monthly performance is no longer comparable and therefore forecasting with any certainty is difficult. Performance is improving; we were 1.57% behind last year's performance at the end of October and are now 0.11% ahead of last year's performance at the end of December. We continue to take recovery action in line with our robust procedures but anticipate ongoing collection and recovery challenges given the current economic climate.</p>

Commentary: The service continues to deal with high volumes of incoming work, and as we make progress clearing the oldest work this has an impact on speed of processing. Workload and performance is managed closely. Following the unprecedented loss of experienced staff in the service, we continue to make progress in training our new starters and they are beginning to make a contribution to overall workloads. We have plans in place for ongoing development over the next 12 months.

Commentary: It is pleasing to report improving performance in December. The service continues to deal with high volumes of incoming work, and as we make progress clearing the oldest work this has an impact on speed of processing. Workload and performance is managed closely. In addition in December we received high volumes of DWP notifications which have also been processed but will not be included in speed of processing statistics until later in the year when annual billing programmes are run.

<p>Commentary: Low volumes disaffect figures : Service difficulties have resulted in some delays in complaints handling. Additional staff cover has been provided from December, and there is proactive steps being taken to mirror improvement similar to FOIA. There was 25 complaints in the period, October has 7 out of 9 late, November 6 on time unless on hold or still outstanding, and 2 out of 2 for December. There has been 46 additional complaints handled which do not meet the Stage1 threshold.</p>

Commentary: Slight increase in EOT figures (local target) within this quarter owing to clearance of some older cases - year to date value close to target measure. Recent changes to approach on matters such as amendments, should hopefully see a stricter approach to delays on applications, and see this figure reduce.
