PORTFOLIO HOLDER:	Cllr Paul Redgate, Portfolio Holder of Finance
REPORT OF:	Emily Spicer, Assistant Director – Wellbeing and Community Leadership
REPORT AUTHOR:	Roxanne Warrick, Strategic Lead – Healthy Living, Wellbeing & Community Leadership
WARD(S) AFFECTED:	ALL
EXEMPT REPORT?	No

On 2 September 2024, the Government confirmed that the Household Support Fund (HSF) would be extended for a further 6 months, for the period 1 October 2024 to 31 March 2025. As with previous schemes, the fund has been made available to County Councils and Unitary Authorities in England to support vulnerable households most in need with the cost of essentials.

Following the publication grant conditions and scheme guidance on 27 September 2024, this report sets out details of the scheme and options to utilise the Lincolnshire allocation of £5,464,685.20 for the benefit of residents most in need of support.

This is the sixth round of funding and as with earlier rounds, Lincolnshire County Council are required to collaborate with district councils and third sector partners to effectively deliver the scheme. Relationships with partners and administrative processes to support delivery are now well established with learning embedded from previous funding rounds.

As with previous rounds, a proportion of the funding has been allocated to schools and early years providers to distribute to targeted cohorts and to support eligible care leavers in supported living accommodation. The remainder will be allocated to District Councils using the Indices of Multiple Deprivation (IMD), to support the delivery of an application-based element and locally determined schemes that meet the specific needs of communities.

Due to the urgent need to administer the funding to our communities, each council is asked to support the recommendations as provided within this report. Whilst funding will be allocated to each sovereign council and dispersed to households in need within that district, a single policy and scheme has developed across the South & East Lincolnshire Councils Partnership to provide administrative efficiency and consistency.

RECOMMENDATIONS

- To accept the funding allocation from Lincolnshire County Council as part of the Department for Work and Pension's Household Support Fund 1 October 2024 to 31 March 2025 to deliver the scheme at a local level. This is an indicative total of **£222,649** for South Holland.
- To give delegated authority to the Assistant Director (Wellbeing & Community Leadership) in consultation relevant Portfolio Holders to implement the policy in respect of administration and local distribution of the funding.
- To utilise local allocation to meet local need and support vulnerable households in-line with the Household Support Fund grant conditions:
 - 30% allocated via grant donation to Lincolnshire Community Foundation to administer public facing application-based scheme to provide crisis support to vulnerable households in most need of help with the cost of essentials
 - 20% allocated via grant donation to Age Uk South Lincolnshire to support low-income pension aged households who may be vulnerable to the cold with small grants to help with energy costs over winter
 - 20% allocated to external partners including local food banks, charities, NHS Neighbourhood Teams to support clients, patients and residents in most need
 - 20% allocated to internal teams including South & East Lincolnshire's Home Energy Advice & Retrofit Team (HEART), Wellbeing Lincs, Good Homes Hub and Housing Advice & Homeless to support residents in most need
 - 10% to retained support administration, staff costs and prevention and advice

REASONS FOR RECOMMENDATIONS

- Accepting access to this local allocation of Government funding will ensure the Council can support residents in the most need with household essentials.

- Previous HSF rounds have been successfully delivered by this model. Relationships with delivery partners and mechanisms are now well established with learning taken from previous funding rounds.
- Working with third sector organisations with reputable record of delivering grants and emergency support to residents in need ensures as vulnerable households as possible are identified, engaged and supported.
- Due to recent changes in winter fuel payment eligibility and concerns that some households will be at increased risk of cold homes, this scheme offers support for households in most need of help.

OTHER OPTIONS CONSIDERED

- Do nothing and decline the grant. The grant is paid in arrears and there is no requirement to draw down the funding. To not utilise the funding would be detrimental to households at a time when many continue to experience financial pressures and is not considered an option.
- To administer the application-based scheme in-house. Due to limited capacity and timescales this is not recommended. S&ELCP have an established relationship with Lincolnshire Community Foundation to deliver local grants. They are a reputable Lincolnshire based grant-maker with the network and experience to efficiently deliver public-facing schemes.

1. BACKGROUND

- 1.1 On 2 September 2024, the Government announced that a further £421 million would be made available to county councils and unitary authorities under the Household Support Fund.
- 1.2 This represents the sixth round of funding since the scheme was launched in October 2021. Lincolnshire has received an allocation of £5,464,685.20 to be utilised between 1 October 2024 and 31 March 2025 to provide crisis support to vulnerable households in most need with the cost of essentials.
- 1.3 On 27 September 2024, The Department for Work and Pensions (DWP) published guidance to Councils detailing the principles of the scheme and the types of support which may be offered. The overarching objective of the HSF is to meet immediate needs and to help those who are struggling to afford household essentials including energy and water bills, food and wider essentials.
- 1.4 Whilst in two tier areas the funding is allocated to County Councils, guidance specifically outlines expectation for County Councils to work with District Councils to provide support. This is to ensure the funding meets its objectives by identifying those most in need. District Councils and charitable organisations that have the reputation, knowledge and relationships to identify and help the most vulnerable residents.
- 1.5 S&ELCP has been working with Lincolnshire County Council, Lincolnshire District Councils and third sector partners to ensure a collective response to equitably distribute funds.

- 1.6 The main principles of the HSF5 guidance are summarised below:
- 1.6.1 The HSF is intended to support a wide range of low-income households including families with children of all ages, pensioners, unpaid carers, care leavers and disabled people, larger families, single-person households, and those struggling with one-off financial shocks or unforeseen events and is not limited to those in receipt of benefits.
- 1.6.2 The scheme may be delivered through a variety of routes including: proactive support, application-based support or by issuing grants to Third Party Organisations to provide support on their behalf. Every Authority must operate at least part of their scheme on an application basis throughout the duration of the HSF, either continuously over the majority of the period or at regular intervals throughout the scheme.
- 1.6.3 Authorities have flexibility and can use discretion to identify and support those most in need. Individual awards can be whatever type and amount is deemed appropriate, bearing in mind the overall scheme criteria. There is no requirement to undertake a means test or conduct a benefit check unless this specifically forms part of the Authority's local eligibility criteria.
- 1.6.4 There must be a clear rationale or documented policy/framework outlining the approach, including eligibility and how households access the HSF. The support must be clearly advertised, inclusive and accessible.

2. ALLOCATION OF HOUSEHOLD SUPPORT FUND IN LINCOLNSHIRE

- 2.1 The allocation must be distributed between 1 October 2024 and 31 March 2025. Due to the short period between the guidance being published and the delivery plan submission deadline it is challenging to make fundamental changes to the distribution model. To minimise risk and aid delivery at pace, it is therefore proposed that the distribution formula used in Lincolnshire for the previous HSF funding round is replicated.
- 2.2 Lincolnshire County Council have confirmed proposed local delivery:
- 64% of the total funding to proactively target children via schools and early years providers, for children eligible for Free School Meals (FSM) Early Years Pupil Premium', (EYPP) and families with a 2-year-old eligible for 'Early Years Entitlement' (EYE). This will be transferred to schools and Early Years providers to be distributed in the best way to meet local needs. It is estimated that over 35,500 children and young people across Lincolnshire will receive this support.
 - 1% of the funding to care leavers in supported living accommodation.
 - 1% to cover administrative costs
 - 34% will be made available to the seven district councils to distribute under local arrangements. This will include an application-based process, in line with grant conditions, to meet the needs of their local populations. Any associated administration costs will be met from individual district allocations. The anticipated amounts to be made available to each district council will be based on the Indices of Multiple Deprivation (IMD) weighted by population.
- 2.3 The indicative allocation to the South & East Lincolnshire Council Partnership totals **£853,481** for the sub-region. This is a **provisional** amount, subject to confirmation following

the verification of the number of children eligible for the proactive support via schools and early years providers.

Allocations for South & East Lincolnshire Council's Partnership are shown in **Table 1**:
